

SENTINEL™ FULLY RENEWABLE CUP STOCK

Food Grade Paperboard

SENTINEL™ FULLY RENEWABLE CUP STOCK

Sentinel Fully Renewable Cup Stock offers sustainability features to meet consumer needs without sacrificing its outstanding converting and packaging performance or exceptional print quality. The first of its kind, Sentinel Fully Renewable Cup Stock is made of fiber from trees where responsible forestry practices are used and from sugarcane-based polyethylene.

Sentinel Fully Renewable Cup Stock is suitable for both hot and cold cup applications and is available in a basis weight range of 136 – 210 lb/3000 ft² or a board caliper of .012 – .025 in.

Features:

- Fully renewable
- Consistent quality
- Excellent converting performance
- Superior strength properties
- Outstanding print quality
- Inquire about availability of certified fiber
 - FSC[®] Mix Credit¹
 - PEFC[™] Chain-of-Custody
 - SFI[®] Chain-of-Custody

Benefits:

- Suitable for direct converting applications
- No change to existing converting equipment
- Fully renewable - meets consumer needs for products made from a renewable resource

End Uses:

- Hot cup
- Cold cup
